

It's good to know your business partners well!

Julius Hoesch GmbH & Co. KG

Tradition and Future

In 1865 Julius Hoesch was founded as a chemical and mineral oil trading company in Düren. The aim then was to supply the local paper and textile industries. Thus the company has been embedded in the family tradition for almost 140 years.

Visitors are amazed at the size of our premises and the newly erected chemical complex, which measures more than 80,000 m². This complex features large-volume container installations for acids, leaches and solvents. Equally amazing is the high rack warehouse with space for more than 4,000 pallets, the generous stock-keeping—as far as solids are concerned—as well as the SPS-controlled production and mixing plants.

Efficiency is the decisive factor

Closeness to the customer – for us more than just a slogan!

We react in a flexible way to the requirements of our more than 6,000 customers.

Our delivery programme includes more than 1,000 different products and specialities, which, for the major part, are always on stock. Our customers appreciate the short and accurately-timed delivery periods which result from this policy.

The delivery programme is subject to continuous updating in accordance with the requirements of our customers
